

## Table of Contents

### Military Sciences

|  |   |
|--|---|
| Quantum technologies – unrivaled autonomy, resilience, accuracy and security of combat platforms. .... | 9 |
| <i>Kostiantyn Kulahin, Kostiantyn Kvitkin, Dmytro Sizon</i>  |   |

### Economic Sciences

|  |    |
|--|----|
| Digital skills in times of crisis and their links with career success. ....                                | 14 |
| <i>Halyna Mishchuk</i>   |    |
| Financial security as a pillar of the stability of the U.S. banking system. ....                           | 16 |
| <i>Ivan Bakalo</i>   |    |
| Enhancing marketing strategy through AI-augmented competitive intelligence: a new decision framework. .... | 19 |
| <i>Mark Ungurian</i>   |    |
| Features of the formation of communication skills of modern managers. ....                                 | 22 |
| <i>Oksana Zhuk, Igor Fedoryshyn</i>  |    |
| Establishment of contingency logistic routes in the event of infrastructure disruption. ....               | 25 |
| <i>Olena Tsvirko, Oleksandr Korenitsyn</i>   |    |
| Innovative R&D management during instability and multi-crisis. ....  | 29 |
| <i>Svitlana Goncharenko</i>  |    |
| ANN as innovative technology for economical efficiency of educational management during crisis times. .... | 33 |
| <i>Svitlana Krasnyuk</i>   |    |
| The circular economy as an instrument of anti-crisis management in water transport. ....                   | 37 |
| <i>Yelizaveta Shkurko</i>  |    |

### Pedagogical Sciences

|   |    |
|---|----|
| Beekeeping in the context of professional activities of future technology teachers in Ukraine. .... | 42 |
| <i>Anatolii Ivanchuk</i>  |    |

|   |    |
|---|----|
| Digitalizing medical English<br>learning: challenges and prospects. ....  | 45 |
| <i>Lada Lichman, Oksana Kononets',<br/>Lorena Mykhailenko, Liudmyla Saienko</i>   |    |
| About constructing effective test<br>items in high-stakes exams. ....   | 49 |
| <i>Maria Samarina</i>   |    |
| Algorithm for developing the foundations of sociocultural<br>competence of primary school pupils in the process<br>of learning to read in English lessons. .... | 51 |
| <i>Oksana Mykhailova, Liliya Vityuk</i>   |    |
| Innovative anti-crisis management<br>of competitive education. ....   | 55 |
| <i>Svitlana Goncharenko</i>   |    |
| Smart resilient management in higher<br>education research in conditions of uncertainty. ....   | 59 |
| <i>Svitlana Krasnyuk</i>  |    |
| Competence potential of timelines in<br>chemistry education of gymnasium students. ....   | 63 |
| <i>Tetiana Korshevniuk</i>  |    |
| About the professional testing in linguistics. ....   | 65 |
| <i>Tetiana Mykhailova</i>   |    |
| Methods of using role-playing games as<br>a means of developing creative thinking in<br>cadets of military higher education institutions. ....                  | 68 |
| <i>Yulia Kyryk</i>  |    |

## Political Sciences

|   |    |
|---|----|
| Anticipation government as a tool of strategic risk<br>management in the sphere of national security. ....  | 72 |
| <i>Daria Likarchuk</i>  |    |
| Iver B. Neumann's "The Other" as a methodological<br>tool for rethinking national identity in wartime. .... | 75 |
| <i>Oleksii Shyshkin</i>   |    |
| Information wars in the digital age:<br>challenges and tools of public governance. ....                     | 78 |
| <i>Suleyman Karasayev</i>   |    |

## Technical Sciences

|  |     |
|--|-----|
| Node balancing for big data processing<br>using machine learning techniques. ....  | 82  |
| <i>Dmytro Vovchenko, Liubov Oleshchenko</i>  |     |
| Real-time radiation anomaly mapping using Kp/GOES<br>X-ray correction and H3 spatial aggregation. ....                             | 86  |
| <i>Maksym Ilin, Liubov Oleshchenko</i>   |     |
| Wearable EEG framework with time-aligned audio<br>segmentation for quantifying countable mental energy. ....                       | 90  |
| <i>Mykhailo Vernik, Liubov Oleshchenko</i>   |     |
| Training neural networks to sort:<br>a new approach to classical algorithms. ....  | 93  |
| <i>Nina Zdolbitska, Dmytro Bas, Serhii Zdolbitskyi</i>   |     |
| Interpretation of objects in images from aerial photographs<br>using the ArcGIS geographic information system. ....                | 96  |
| <i>Oleksandr Herasymov, Serhii Khmelevskiy</i>   |     |
| Methodological bases of innovative information systems in<br>the field of computer linguistics (natural language processing). .... | 100 |
| <i>Svitlana Goncharenko</i>  |     |
| Deep machine learning for innovative educational<br>management under crisis conditions. ....                                       | 104 |
| <i>Svitlana Krasnyuk</i>   |     |

## Philological Sciences

|  |     |
|--|-----|
| Innovative IT technologies of computational linguistics. ....  | 109 |
| <i>Svitlana Goncharenko</i>  |     |
| Innovative intelligent management of philology<br>research projects in times of instability and crisis. .... | 113 |
| <i>Svitlana Krasnyuk</i>   |     |
| Energy industry slang: jobs in oil and gas field. ....   | 117 |
| <i>Tetiana Maslova</i>   |     |

## Legal Sciences

|  |     |
|--|-----|
| Ukraine's energy capacity in terms of the legal regime<br>of martial law: the public administration aspect. .... | 122 |
| <i>Oleksiy Lushnikov</i>   |     |
